TInnGO project a sustainable game changer in European transport

Women face **higher risks** and burdens than men in transport, due to **unequal** access to **resources, education, job opportunities** and **entrenched socio-cultural norms**.

TInnGO will develop a framework and mechanisms for a **sustainable game change in European transport** using the transformative strategy of gender and diversity sensitive smart mobility.

Revealing actionable knowledge from data for **more inclusive and efficient** transport systems

The **European DIAMOND project** analyses and converts data into knowledge with notions of impartiality to move towards a **more inclusive and efficient transportation system** from a gendered perspective.

The project identifies and evaluates specific measures to meet the needs and expectations of women as users of different modes of transport and as workers in the sector.
