16 SEPTEMBER | 09:30 (CEST)

The **2nd Tlnngo Multistakeholders' Forum** is taking place on 16th September 2021, being the digital forum where new perspectives to approach gender smart mobility in the transport sector will be discussed with different stakeholders; capitalising on the discussions and insights gained during the **1st Tlnngo Multistakeholders' Forum last year**.

Key concepts in TlnnGO project, such a smart mobility, gender and diversity mainstreaming are also the cornerstones of the public discourse. A view of gender and diversity in smart transport that connects the TlnnGO roadmap, on how this can progress current debates and create a paradigm shift towards greater inclusivity in the transport sector. The measure of success is when current and future transport provision is fully accessible and inclusive.

Scientific evidence is to be presented and discussed on how inequalities are created and furthermore, the Forum will address paradigm shifts in education, employment, technological innovations and entrepreneurship as arenas for change and inclusion. It will present which strategies /policies and interventions have been most successful in increasing diversity, moving a step forward from Gender Action Plans to Gender and Diversity Action Plans, and whether this is having identifiable effects in the wider transport system.

During TlnnGO Multistakeholders' Forum, the focus of the stakeholders, will be on how policy making should deploy results from Gender & Diversity Equality research, will be the focus of stakeholders, considering the **TlnnGO Observatory**, the **10 national hubs in 13 European countries**, the **TlnnGO Open Data Repository** (T-ODR) and the **TlnnGO Open Innovation Platform**.

Key questions that will be discussed in the event are:

- How Gender Smart Mobility is translated into policy and concrete actions in the EU and Member States?
- How the research on gender in European Transport and the various tools for Gender and Diversity Smart Mobility can boost a gender-balanced and overall inclusive transport ecosystem in Europe?
- Why the EU Transport and Mobility Policies need to focus on Gender Equality, Inclusion and Diversity?
- Which priorities should be set to develop policies that can address gender imbalances in the transport sector?

*The TlnnGO MS Forum will use Zoom platform; **Zoom registration link for 16th September 2021, 9:30CEST***

The TlnnGO MS Forum will be recorded and live streamed in the YouTube
